## DOG DAYS STUFF

*By Westa*

FREQUENTLY, when the China Press staff is right in the midst of the daily struggle to get out the next day's issue, Buster Brown squeezes into the office to sell life insurance and tell funny stories. He always gets a lot of laughs, and always squeezes out more or less puzzled, due to his inability to decide whether the laughs are induced by his insurance arguments, or his stories. Both are mirth provoking.

One of his latest yarns concerned the adventures of a couple of hicks who crowded their feet into unaccustomed shoes one day after the harvest was all nicely rounded up in ricks and cribs and sallied forth from their native bushes to enjoy a long cherished visit to New York.

They arrived in the morning and put in some good licks at rubbernecking during the day, repairing in the evening, after a gorge of ham and eggs at a one armed restaurant, to their room at the hotel at which they had registered.

One of them was for hitting the hay immediately, but the other 'lowed he would take in that there great white way he had heard so much about, and so, after a fruitless effort to induce his companion to join him he headed straight for that part of Broadway where the stars and soloists of the Mazda Brothers troupe were doing their stuff.

To the one who remained behind, soaking his ankle blisters in a basin of cold water, a problem presented itself, namely, how he could let the wanderer into their room later on, without being awakened himself, or without locking the door; finally surmounting this double hurdle by the clever artifice of locking the door and tossing the key through the transom into the hall, where his buddy could pick it up when he returned, and thus let himself in.

At midnight or thereabouts the night prowler returned to the hotel, and was greatly puzzled, and troubled, to find the door of their room locked against him. He quickly realised that no amount of noise he could make by pounding or kicking the door from without would equal, let alone surpass the great volume of tumult that was arising from his friend's snores within, and was just about to seek the night clerk's advice when his eye happened to light on the latch key, on the hallway door.

Letting himself in, and being somewhat peeved, he walked over to the bed and began shaking and tugging at his companion, with the idea of waking him up and giving him the bawling out that he deserved. And finally, by dint of tremendous effort, he managed to bring the sleepy one to the edge of consciousness.

"Hey!" yelled the late arrival into the other's ear. "Hey, Jim! Ain't you got no sense? Whaddye mean locking yerself up in the room this way? 'Spose they had been a fire!"

Jim, only half awake and sleepily lapsing back into the pillows from which he had been dragged, finally answered his friend's query, but not until it had been propounded several times, and even then his answer came from a great distance, and in a tone of sleepy resignation.

"Wall, Joe," he said, "Ef they had been a fire—I—I—guess I jes' couldn't have went."

Mr. J. E. Needham, Acting Deputy Commissioner of Public Works, is in the market for a very large order of material and supplies. In fact, the amount of this material that Mr. Needham will buy, if he can find it, is so large that the check that he stands ready to make out in payment for it will run into the millions of taels.

It behooves all the big trading firms in Shanghai, therefore, to get in touch with Mr. Needham, especially those who deal in engineering supplies, for here is a chance for a deal that will put the lucky firm that lands the order on Easy Street for a great many years to come. Mr. Needham says he will not look very closely into the margin of profit taken down by the fortunate bidder, his anxiety to get the material being so great that

## WOMEN TO WEAR EARS ON OUTSIDE, IS FASHION EDICT

### Skirts Coming Down And Waists Going Up, Says Irene Castle

*(Reuter's Service)*

New York, July 10.—The female ear is once more to be permitted sunshine and fresh air. No less an authority than Irene Castle, who made bobbed hair famous, is responsible for the statement. She arrived here on the Berengaria of the Cunard Line, fresh from a stay in Paris.

"For the first time in years we shall see women's ears," said Miss Castle. "It's going to be a new era." Earrings are natural accompaniments to the new style, Miss Castle said, and everybody is wearing them.

She said American women going to Europe this summer were finding themselves in a distressing situation when they arrived in Paris. "If they've bought their clothes in this country," said Miss Castle, "they have to run immediately for a modiste to let down their skirts. And if they haven't enough of them in their skirt they have to buy new ones. The skirt is going down, nothing can stop it. And waists are going up."

Miss Castle's own skirt nearly reached her shoe tops. She said it was really pathetic to see the consternation that struck American women when they arrived in Paris and found themselves "years" behind the fashions.

The most popular colors now, said Miss Castle, were lavender and orange. She said she could not comment much on men's styles, save to remark that "Englishmen's clothes are the same as ever."

Coiffures are loose, she said, women with long hair doing it up in a coil on top of the head. She said bobbed hair was holding its own.

Peking, July 31.—A Mandate has been issued appointing Dr. Wang Chung-hui Acting Premier.

Dr. W. W. Yen has applied for ten days' leave.

Peking, July 31.—President Li Yuan-hung telegraphed to Mr. Tang Shao-yi yesterday asking whether he would accept nomination for the Premiership.

It is reported that General Wu Pei-fu is nominating General Chang Shou-tseng and Admiral Tang Hsiang-ming for the Ministerships of War and Navy respectively.

## *Kelly And Walsh Printing Office In Hongkong Burned*

*(Reuter's Pacific Service)*

Hongkong, July 31.—A fire broke out at 9:15 this evening. It started at the Hongkong Stationery Store and involved Messrs. Kelly and Walsh's Printing Office which has been completely gutted. The fire then spread to the Annexe of the Grand Carlton Hotel and burned most fiercely. Messrs. W. G. Humphreys and Company's building, the Masonic Hall and the Telephone Company's Central exchange are threatened. The Fire Brigade answered the alarm most promptly but the inflamable nature of the contents of the buildings rendered the fire-fighters' efforts almost futile. The damage is likely to be very considerable.

## *King And Socialist In Parley At Rome*

*(Reuter's Service)*

Rome, July 31.—The Cabinet crisis has produced an unprecedented political event. Signor Turati, the Socialist leader, was received in audience by the King yesterday, after which the Socialists agreed to co-operate with the Constitutional parties. Nevertheless, they declined to support any Cabinet in which the Fascisti or the Extreme Right are represented. Consequently, Signor Orlando has abandoned the formation of a Cabinet.

The Fascisti-Socialist conflict at Ravenna has been renewed. The Fascisti bombed and set fire to Byron Hall, which was occupied by the Co-operative Societies. The subsequent street fighting resulted in one Fascisti being killed.

*(Reuter's Pacific Service)*

Peking, July 31.—When Admiral Tang Hsiang-ming was proceeding to Wuchang he left the train several stations from the capital in order to avoid the crowds which were reported to be awaiting him. Admiral Tung visited the Provincial Assembly and later called on General Hsiao Yao-nan, the Military Governor, but the latter did not receive him.

A meeting was held on July 29 by people opposed to Admiral Tang Hsiang-ming and in favor of the appointment of General Hsiao. The latter is reported to be willing to take over the Civil Governorship and the relations between the two Governors are strained consequently.

## *Master Of Liner Nanking, Captain Dobson, Is Offered Big Bribe By Drug Runners*

### China Mail Skipper Now En Route To Hongkong, Tells How $75,000 Worth Of Narcotics Were Seized On His Ship At San Francisco

Before the China Mail steamer Nanking sailed yesterday on its way to Hongkong and Manila Capt. T. H. Dobson, Master of the vessel, told of the seizure from the Nanking on its recent voyage of narcotics valued at $75,000 and related how he had informed the American authorities of an attempt that had been made to bribe him. The cache of drugs was found on the Nanking when it landed at San Francisco behind panels in the women's steerage. The attempt to bribe Capt. Dobson was made by agents of an international drug ring at Hongkong before the Nanking sailed on its recent voyage to the United States.

Captain Dobson said he received a number of letters suggesting negotiations with the international ring. One of them contained the flat offer of $5,000 and $1,000 additional for each later voyage between the Orient and America. One letter which the captain displayed asked permission to permit the ring to appoint a "number one boy."

The ship's master ignored the communications in the hope, he said that one or more of the agents would reveal themselves.

**SENDS OUT WARNING**

It was at Captain Dobson's suggestion and acting on his suspicions forwarded by wireless to the San Francisco customs officials, that the raid on the liner was made, resulting in the finding of 140 cans of smoking opium and three hundred packages of cocaine.

Captain Dobson had his suspicions aroused, when, on entering Honolulu harbor en route westward four sampans met the steamer. Three of them were run down and searched, but the fourth got away.

Believing that a large quantity of narcotics was still on board, the master notified the San Francisco authorities by wireless. The Coast Guard tug Shawnee was sent out of the Golden Gate to escort the Nanking into San Francisco harbor, but lost the liner in the fog and did not pick her up until after the passenger vessel had reached quarantine.

Surveyor of Customs Lawrence J. Flaherty dispatched at daylight a squad of customs inspectors to meet the Nanking at quarantine and the search was commenced before the vessel docked. Inspectors C. B. Weltner and Ben Schneider found the contraband. The search was ordered continued until every part of the Nanking has been gone over.

Just what action will be taken was by the Customs Bureau in the matter is undecided when the Nanking left San Francisco. Under the new Jones-Miller anti-narcotic law the captain of the vessel is subject to a fine of $25 for every ounce of narcotics found on his steamer. If the fine is not paid the Government may withhold clearance of the steamer. Inasmuch as Captain Dobson himself informed the authorities that narcotics were probably to be found on his vessel. Collector of Customs W. B. Hamilton could not fine him for giving information which led to the discovery of the contraband.

When the Shipping Board liner President Wilson, formerly the Empire State, of the Pacific Mail, sailed from San Francisco on its recent voyage for the Far East clearance was not held up, even though Captain Henry Nelson failed to pay a fine of approximately $50,000 levied against him by the customs service because a quantity of opium was found on the steamer last week. The ship, though operated by the Pacific Mail Steamship Company, belongs to the United States Government, and the Treasury Department has decided that one branch of the service may not fine another for infractions of the law.

**RING STRONGLY ORGANISED**

According to Captain Dodson, narcotic runners in the Hawaiian Islands are notorious. They make use of speedy sampans, equipped with powerful engines and capable of training an ocean liner without being left behind. These sampans cruise in a radius of 100 miles out of Honolulu, on the lookout for liners from the Orient.

Despite the fact that the Nanking was escorted into Honolulu by a revenue cutter, said the captain, four sampans were within sight and several packages of narcotics, inclosed in watertight containers, were thrown into the sea from the ship. The drug was picked up by one of the sampans, he believes, although a search of three of the boats failed to reveal any of the contraband.

## SAKAKI GROUNDS ON SANDBANK BUT IS FREED BY TUGS

### Passengers Unhurt When Ship Hits Land Off Woosung

After being aground on a sand bar on the Pootung side of the river three miles below Woosung for more than twelve hours the s.s. Sakaki Maru, of the Dairen Kisen Kaisha, was hauled off yesterday afternoon and finally docked at the South Manchuria wharfs.

The Sakaki M. was coming from Dairen and Tsingtao and was proceeding to Woosung to anchor for the night, when, at 1:30 a.m., it was aground on the sand bar. Nearly all of the passengers were awakened, but none was injured, and the vessel was undamaged.

The tugs, Victoria and Samson were dispatched from Shanghai yesterday morning, but failed to refloat the vessel at high tide, and the passengers were then taken off and brought to the Customs Jetty by tender. Later, the St. Dominic was sent down and the three tugs were successful in getting the Sakaki to deep water.

The Sakaki is the crack liner of the Dairen Kisen Kaisha, which now operates the South Manchurian Line steamers and is very popular on the Tsingtao and Dairen run. Not long ago the Sakaki collided with a United States Shipping Board liner, the Eastern Sailor, in the Whangpoo River, and went into drydock for repairs, going back on the Tsingtao run in time to take the bulk of Summer tourists to the popular beach resort.

Agents of the operating company said that in all probability there will be no delay in the schedule because of the mishap and they expect that the Sakaki will sail for Tsingtao and Dairen this afternoon at 5 o'clock from the Southern Manchurian Company Whangpoo Wharf, where it is expected that she will dock tonight.

## *Sues Husband For Furniture She Already Has*

An adjournment until August 14 in the hope that a settlement may be arranged out of court was granted by Judge Peter Grain in the British Supreme Court yesterday in the suit brought by Mrs. F. J. Doylend, a boarding house keeper, against her husband, J. Doylend. The furniture was valued at $4212.

According to Mr. Mancel Reece, who appeared for the plaintiff, there was an error in the papers for the suit, which had been drawn up by the plaintiff, herself. The furniture sued for was actually in her possession. He asked for the adjournment to arrange the settlement.

## EXCHANGE SHOP FRAUD IS BARED IN MIXED COURT

### Chinese Obtains 2,000 Yen By Clever Ruse, Is Charge

A novel type of fraud in which the proprietor of an exchange shop was the victim was revealed in the Mixed Court yesterday when three Chinese were arraigned on charges of obtaining 2,000 Yen under false pretenses. Two of the accused were discharged, but the third was held by order of the court pending further investigation.

According to the evidence submitted, the accused, who was held, first went to the offices of the Nippon Yusen Kaisha, and, after demanding to see the manager, informed the latter that he had been sent from Peking with a view to purchasing some of the company's ships for the Chinese government. The manager informed him that the company had no ships for sale and he left.

The next day, however, the evidence showed, he returned, accompanied by the proprietor of a Chinese exchange whom he had told that he was an official of the Nippon Yusen Kaisha and that he wanted to buy 10,000 Yen for the company. The latter gave him 2,000 Yen, and the accused excused himself and stepped into the ante-room to the manager's office. Then he slipped out of another door, and when the exchange shop proprietor made inquiries, the fraud was discovered.

Further estimony against the accused was given by a Mrs. Hirano, residing on Boone Road, who testified that he had come to her house last January, saying that he had been sent there by a Japanese. He disappeared after a few minutes, and later it was discovered that a pair of boots were missing.

The man was arrested when he went to the Hongkew Police Station to give bail for some men seized in connection with an opium raid. A Chinese detective recognised him as the man sought on the fraud charge.

Peking, July 31.—At the ten-th meeting of the First Section of the Sino-Japanese Commission today, the Japanese Commissioners submitted a proposal concerning land property. As this is related to Articles 23 and 24 of the Shantung Treaty the discussion centered on the interpretation of these two Articles. The Commission did not come to a conclusion and it was decided to continue the conversation at the next meeting.

## EUROPE TO ASIA VIA U.S. IS PLAN OF SHIP BOARD

### Tickets To Be Sold For G.$620.50, Says Announcement

*(Reuter's Service)*

New York, July 7.—Transportation of passengers on one ticket from Europe to the Orient via the United States, has been arranged by the United States Shipping Board. Shipping Board passenger vessels across the Atlantic and the Pacific and an arrangement with transcontinental rail lines permit a passage ticket being sold for $620.50 (gold).

Vessels of the United States Line are to be used for the Atlantic passage and those operated by the Admiral Line out of Seattle and the Pacific Mail out of San Francisco are to be utilised for the service.

The special rate of $620.50 (gold) will entitle a passenger from Europe to the Orient to first class transportation on the United States Line's ships to New York, first class transportation on through trans-continental trains including Pullman, to either San Francisco or Seattle, and from those ports to the Orient.

## *Men's Costumes Of 600 Years Ago Are Found In Arctic*

*(Reuter's Service)*

Copenhagen, June 17.—Men's costumes of the thirteenth and fourteenth centuries have been found in Greenland. They are in an excellent state of preservation and resemble the clothes worn by Dante in the published pictures of the Italian poet. They were found by Dr. Noerlund Danish scientist, while excavating in ancient burial grounds in the southwestern part of Greenland. They are said to be the only existing specimens in the world of garments worn by men in the thirteenth and fourteenth centuries. Deposited in the frozen earth for about 600 years, they have been preserved from destruction by moth and age. The garments are now in Copenhagen. Dr. Noerlund has found also several old wooden crosses in the frozen earth. They are covered with inscriptions in the Gothic manuscript and are considered by scientists to be of great historic value.

## CHANC TSO-LIN HITS U.S. LOAN POLICY AS SOP TO JAPANESE

### Mukden General, At Banquet, Is Ingratiating

### RETURNS TRAINS

### Change Of Attitude Due To Fear Of British

BY JOSEF W. HALL
*Staff Correspondent the China Press*

Peking, July 30.—Chang Tso-lin has returned two of the Peking-Mukden railway trains that were included in the rolling stock he seized at the time of his retreat beyond the Great Wall, and has promised to return others in the near future.

Chang's sudden change of attitude follows his recent banquet to the Japanese at Mukden, at which he promised to encourage Japanese interests in Manchuria, and on which occasion he sought to ingratiate himself with the Japanese by intimating that the American loan policy constituted China's gravest danger.

It is believed that Chang has been persuaded that it would be inadvisable for him to hinder the operation of the Peking-Mukden railroad any further, lest he become involved in international difficulties, particularly British interests who hold a lien on the road as security for loans.

*(Reuter's Pacific Service)*

Tokio, July 27.—Despite repeated protests from the Japanese and British Consuls at Mukden against the seizure by General Chang Tso-lin of the whole of the salt revenue in the Manchurian provinces and of rolling stock, he maintains his obstinate attitude. If the situation regarding rolling stock continues as at present great inconvenience will be experienced in the transportation of the harvests in the autumn.

## *Chang Has Novel Face Saving Idea*

*(Chung Mei Service)*

Peking, July 28.—Although there have been daily tales of the terms of peace which General Chang Tso-lin asks of the Peking Government, a new one which outshines all the others in point of interest is abroad. Unconfirmed as it is, it has many of the elements of truth to anyone who realises the potentialities of Chinese politics along the line of the unexpected.

It seems to be pretty commonly allowed that General Chang Tso-lin is anxious to have his title as lord of the Three Eastern Provinces restored to him and Peking is wavering toward that end also. In the negotiations for that purpose the following is supposed to have taken place. The General claims that he is willing to shoulder his just share of blame for the fighting but he adds that Wu Pei-fu likewise should come in for his share. Therefore, if the Government issues a decree placing the blame, half of it at least should be credited to General Wu. The Central Government thought this might be a way out so they consulted with Tsao Kun at Paoting and the latter is said to have wisely nodded his head to indicate that it was alright with him and they could stick it on to Wu Pei-fu if it would help bring peace with General Chang. Hence we have the late reports of the good understanding that is supposed to be growing between Fengtien and Paoting.

he doesn't care, he says, how much profit the sellers grab off for themselves.

What Mr. Needham wants is a sewer system that can be strung on poles, or wires, or suspended from captive balloons.

For years and years, this public official says (indeed he wouldn't have to say it, for we all know it to be true) Shanghai's Standing Sob has been the lack of a sewer system.

"Very well," said the hard working and conscientious officials of the Public Works department about a year or so ago, "Very well, we will put in a sewer system."

And so they began to put it in, adopting the only practical method of installation that all the civil engineers in the world have been able to evolve since old Adam scooped out the ditches that drained surplus moisture out of the Garden of Eden.

This method necessitates the digging up of the surface of the ground.

"You might add," said Mr. Needham, "that we are also willing to pay handsomely for any scheme that anybody will submit that will enable us to put down sewer pipes without digging up the streets."

All the above by way of explaining to the sob sisters and bothering brothers who are everlastingly wailing about the torn up condition of the streets—this fundamental engineering axiom:

You can't have a sewer system without first having the streets turned into trenches.

That is a simple fact that ought to be easily understood.

"Yours," to quote J. Butts, the returned angler, "for an early winter."

## Adjournment In Savoy Hotel Suit Against Welch

An adjournment until August 14 was ordered by Judge Peter Grain in the British Supreme Court yesterday in the action brought by the Savoy Hotel against G. R. Welch. The court informed Mr. Popovitch, manager of the hotel, that Welch appeared to have left Shanghai. He had taken a third class passage on a Japanese boat for England, the court was told, and the manager of his firm said that he had gone home on four months' leave. The best thing to do would be to see the manager of the firm.

## Shansi Governor Has Novel Plan To Curb Drug Traffic

(Reuter's Pacific Service)

Peking, July 30. — Governor Yen of Shansi is granting local self-government to the villages and shiens with the object of allowing the people to combat the drug menace and other local evils.

Hitherto three hsiens, Yangchu, Yuiyuan and Yutse, have adopted this scheme and others are following. Each district will elect its own chief, establish its own court, appoint its own police and pass its own laws.

Governor Yen, accompanied by a hundred students, is visiting these districts where the students will carry out investigation of the conditions, reporting the results to the Governor each evening.

The hsien in which are found the best conditions will be awarded the title of model hsien.

The Governor is also sending a special commission which will furnish official reports regarding (1) law and order, (2) standard of civilisation, (3) what constructive work should be carried out and (4) whether the people have selected a chief capable of fulfilling his duties. The Governor's party is publishing a daily paper entitled "Village Talk" and is distributing a vast amount of instructive literature.

## Reduce Capital Of Shanghai Dock To Tls. 4,177,500

A reduction of more than Tls. 1,400,000 in the capital of the Shanghai Dock and Engineering Company was confirmed in an order issued by Judge Peter Grain in the British Supreme Court yesterday in accordance with the action taken in a special resolution adopted by the company.

The capital of the company was originally Tls. 5,570,000, divided into 55,700 shares of Tls. 100 each, but provision was made in the articles for reduction. The resolution adopted by the shareholders provides for a reduction to 55,700 shares of Tls. 75 each, totalling Tls. 4,177,500.

Mr. Mancel Reece, appearing for the company, said that the larger capitalisation is in excess of the wants of the company.

## Former Customs Man And Wife Slain In Chita

A dispatch received by a local Russian newspaper yesterday told of the murder at Chita of G. I. Mikulin, formerly a clerk in the Chinese Maritime Customs at Swatow, and his wife. Mikulin, accompanied by his wife and brother, S. I. Mikulin, who is in the Customs here, left Shanghai last Spring on a trip to Russia. G. I. ## Sun's Failure Welcomed By Northern Militarists

(Eastern News Agency)

Canton, July 31.—A certain M. P. who recently arrived here from the North has made the following statement as to the situation there:

"The coup d'etat recently carried out by General Chen Chiung-ming has somewhat met the approval of Northern militarists, including General Wu Pei-fu, but it is alleged in the North that General Chen has an ambition to become the master of the South himself, a matter which has lowered his prestige to a certain extent. Especially the fact that the troops under the command of General Chen Chiung-ming gave strict order to the M. P.'s belonging to the Mintung Party to leave Canton and that they forcibly deprived the M. P.'s of their personal effects and money, has enraged M. P.'s in the North.

"In view of the fact that those M. P.'s, now in Shanghai are determined to impeach General Chen Chiung-ming at the beginning of the sitting of the Parliament, it is more than likely that the coup of General Chen will become a very troublesome question in tre future.

"As for Dr. Sun Yat-sen, the people at large in the North respect his character, but judging from the last incident in the South they have come to entertain the notion more deeply than ever that Dr. Sun is not a man of sufficient political ability to effect the unification of the country. On the other hand, however, as they are of the opinion that the abdication of Mr. Hsu Shih-chang, ex-President, and the recovery of the Old Parliament are in a sense compatible with the constitutionalism which Dr. Sun has always advocated, it is more than probable that in the event of unification Dr. Sun Yat-sen will be given a suitable position. It is true that there are not a few who are sympathising with Dr. Sun in his present plight, but the fact cannot be denied that militarists attached to General Wu Pei-fu welcome Dr. Sun's failure.

"With regard to the chaotic situation in Canton, politicians in the North regard it merely as a local question. In the meantime, an argument is gaining strength that as a preliminary step to effect the unification of the North and South, a conference of representatives of all local provinces should be held in Shanghai. As regards the self-government of federated provinces, it is generally observed in the North that it is nothing but an indication of ambition on the part of the promoters to establish their own influence, judging from the circumstances they are now in.

"Though it is evident that the recovery by Li Yuan-hung of the Old Parliament is a transitional measure of a section of militarists for the unification of the North and South, militarists, it is to be expected, cannot always escape the restraint of the Parliament, after once it has been reconvoked. Militarists are anything but a match for politicians. This will easily be seen from the present condition of General Wu Pei-fu.

"Mr. Tang Shao-yi has a mind to pay a visit to Peking. He is now providing those M. P.'s of the Mintung Party who have been expelled by General Chen's troops, with money required and is sending them to Shanghai. Moreover, as Mr. Tang is still maintaining his old intimate relations with the M. P.'s belonging to Mr. Wu Ching-lien's faction, it is not very difficult for him to establish his political foundation in the North at any time."

### FIRE IN JAPAN

(Reuter's Pacific Service)

Tokio, July 26.—The Sanyo Hotel at Shimonoseki was completely destroyed by fire early this morning. The flames originated in the main part of the hotel, and the whole establishment including the annex was gutted in the course of four hours. The loss estimated at Y.200,000. The origin is believed to have been a leakage of electricity.

### SOUTHERN BANDITS

(Reuter's Pacific Service)

Peking, July 31.—A band of 1,300 brigands said to consist of deserters from Dr. Sun Yat-sen's and General Chen Chiung-ming's armies recently left Lopinghsien and entered Anhwei via Yunnanhsien. It is reported that they have now reached Tunkai where trouble is feared at their hands.

**FOR REMOVING SUPERFLUOUS HAIR.**

No woman who has any sense of beauty will deny that superfluous hair is one of the greatest drawbacks to good looks.

Realising this, women of all times have put themselves to any expense and have endured considerable pain and discomfort in order to rid themselves of this great disfigurement.

Nowadays electrolysis is a prevalent "cure" for this evil, but in reality this process involves a great deal of unnecessary expense, waste of time and pain.

The simplest quickest, and most effective treatment can easily be carried out by any sufferer, in the privacy of her home. This is the recipe:

Procure about 1 oz. powdered pheminol from your chemist; mix a sufficient quantity with a few drops of water into a stiff paste. Apply this carefuly and thoroughly to the hair you wish to remove, and allow the paste to dry. In a few minutes it can be gently scraped away. The skin is left absolutely free from hair and should then be carefully washed in warm water, and if desired, lightly dusted with a little talc powder. (Advt.)

# Allied Commanders Fear Turko--Greek Hostilities

(Reuter's Service)

London, July 30.—The despatch of British troops to Constantinople from Malta emphasises the gravity of the Turco-Greek situation, which is at present obscure.

Athens announces that M. Baltazzi, the Minister of Foreign Affairs, has informed the Allies that the Greeks reserve liberty of action, declaring that peace can only be imposed upon Turkey by force.

Constantinople, July 30.—The Allied Commander-in-Chief has issued a proclamation to the effect that it is resolved forcefully to repress any attempts at disorder.

He is reported to be taking steps to defend the Chataldja sector but Reuter's Paris correspondent reports that a despatch from Constantinople states that the Greek Government has assured the Allies that it does not intend to send troops to the neutral zone, merely reorganising its bases in case the Allies authorise it to march on Constantinople, adding that the authorisation, however, is not yet requested.

Constantinople, July 30.—The Greek troops continue to land at Rodosto. Twenty-five thousand troops have arrived up to the present. A Greek patrol entered the neutral zone and was repulsed by Turkish gendarmes after a short fusillade.

Paris, July 30.—A despatch from Athens states that the British Charge d'Affaires has made representations to the Government regarding its plan to advance on Constantinople.

*French Wireless through Reuter*

Paris, July 30.—The attempted Greek action against Constantinople has begun, being signalised by the concentration of 25,000 men to the north of Silivri (36 miles west of Constantinople). Greek troops continue to disembark. Greek patrols advancing on a two-kilometer front have been repulsed by the Turks.

Le Temps' publishes a message from the Greek Government to the effect that the regions occupied by the Turks in Asia Minor will not again come under Ottoman administration but will constitute an autonomous state under the guarantee of the Hellenic army.

(Reuter's Service)

Athens, July 30.—The Greek Note to the Allies declares that by neutralising Constantinople the Allies are protecting instead of coercing Turkey and are depriving Greece of means for imposing peace. The continuance of the present situation is encouraging the Turks to exterminate Christians.

The Greek occupation of Constantinople is the only means to bring about peace. Greece has made arrangements for that purpose and begs the Allies to give the army of occupation the necessary orders.

Lieutenant-General Sir Charles Harington's declaration that he will forcibly oppose any move against Constantinople has caused a deep impression in Athens. The Cabinet sat for three hours yesterday.

Paris, July 30.—The newspapers state that M. Metaxas, the Greek Charge d'Affaires, yesterday handed to the French Government the Greek Note, which affirms that Greece will not act without the consent of the Allies.

The papers add that the request was immediately refused and that there is reason to believe that the same reply was given in London and Rome.

Athens, July 30.—It is understood that the Government's decisions dealt with in the Note to the Allies will not be executed at present.

The autonomy of Ionia, with extensive self government, is being proclaimed today.

# Astronomers Verify Mars Snow, Vegetation Theory

(Reuter's Service)

Flagstaff, Ariz, July 14.—Members of the staff of Lowell Observatory here state that recent studies of Mars bear out the theories of the late Percival Lowell, founder of the observatory, as to snowfall and vegetation on that planet.

The seasons on Mars have the same significance as on our earth and occur in the same manner, but are about twice the length of our own, according to Doctors E. C. and V. M. Slipher of the observatory staff. A statement by them on the results of the latest observations is as follows:

"Winter has been occurring in the southern hemisphere of the planet Mars, and the extensive dark areas there are now faint and have been so for some time, betokening the dead season of vegetation in conformity with the view held by Lowell regarding the seasonal changes on the planet.

"The large winter cap of white about the south pole of Mars, which for some months has appeared to consist of only mist or cloud covering the south polar regions of the planet down to latitude forty degrees, is now dissipating and disclosing a mantle of snow beneath. The spring season for the southern hemisphere is now approaching, the season there at present corresponding to our March 21, and these changes are characteristic of late winter over the south of Mars.

"In the northern hemisphere autumn is arriving and the polar cap there has already become conspicuous, having increased rapidly during the last few Martian nights. On the night of June 17 it was observed that when the planet's longitude 265 came into Martian sunrise, and therefore visible to us, a vast area there had during the preceding night been covered by a bright canopy. This bright hood faded off toward the equator but was discernible down nearly to fifty decrees north latitude and veiled the darker markings of the northern part of the planet. This event marked the first really big autumn storm in the northern hemisphere of Mars so far this year. On that date the Martian season corresponded to our September 18. Early indications of autumn made their appearance a month and a half ago at a Martian season corresponding to our late August. These observations have been recorded on photographs.

"These conditions and changes occurring in unison with the planet's seasons indicate that conditions are more analagous to those of the earth than to any of the other planets."

## Garage Owner Sentenced To 6 Months In Jail

Johnson Chao, proprietor of the Johnson Garage, was sentenced to six months at hard labor in the Mixed Court by Assessor Mead and Magistrate Li yesterday for being in possession of eight drums of gasoline belonging to the Electricity Department of the Shanghai Municipal Council. Chao's defense was that he had purchased the gasoline from a Chinese, not knowing it to be stolen property, but he could not produce the seller. The case had been hard fought on both sides, and had been carried on for some weeks.

## Korean, Naturalised As American Pleads Guilty To Robbery

Chung Soo-na, a Korean who became a naturalised American at Honolulu under a ruling that was handed down there by Judge Horace Vaughn admitting to citizenship Asiatics who had seen war service, pleaded guilty yesterday in the United States Court for China to a charge of highway robbery. Judge Lobingier has not yet pronounced sentence.

When the accused was arraigned it was found that he was without counsel and Judge Cornell S. Franklin was appointed by the court to defend him. In the course of the hearing it was disclosed that Chung Soo-na had seen service in the recent war and further, had served in a regiment in which Judge Franklin had been an officer.

The offense was committed last March in the French Concession when Chung Soo-na and a Chinese, who has been dealt with by the French authorities, held up and robbed a Chinese pedestrian.

## N. Y. Women To Hear Obstetrics Lectures

(Reuter's Service)

New York, July 9.—The high death rate among women of the United States during childbirth and the ignorance of the proper methods of nursing and care of the mother have led the Maternity Center Association of New York to publish 12 talks for mothers emphasising the vital importance of complete maternity care. The association asserts that more women between the ages of 15 and 45 die from causes incident to maternity than from any other cause except tuberculosis. Dr. Haven Emerson, of the association's advisory board, estimates that more than 20,000 American women lose their lives during childbirth each year, more than 100,000 babies are born dead and more than 100,000 die under the age of one month.

## Seaman Is Sentenced On Vagrancy Charge

George F. Denack, American seaman who was convicted last week in the United States Court for China on a charge of vagrancy, was sentenced yesterday by Judge Lobingier to serve three months and one day imprisonment at Bilibid. When the case was heard the accused was given the opportunity to supply a bond to guarantee good behavior, but was unable to procure it.

# Peking Union Medicos Fight Tientsin Cholera

(Chung Mei Service)

Peking, July 28th.—Fortunately the spread of cholera in Tientsin seems to have abated and the number of cases hardly warrant its being called an epidemic. Still it was present and nothing but the greatest care can overcome its malicious destruction. The Peking Union Medical College has very kindly given this Agency a story of the dreaded disease and precautions that should be exercised in the fight against it.

Cholera is caused by a small organism much too small to be seen without a microscope. With the aid of magnification it appears as a very active thread-like animal. These organisms do not normally live in the intestine of man but when taken in by the mouth they grew very rapidly. When present in very large numbers in the bowels, the poison that they liberate causes diarrhoea and the vomiting that one sees in cases of cholera. This poison is such that it draws out much of the liquid that makes up the blood, to such an extent that death results.

Cholera is always contracted by swallowing the germs that produce the disease. As these germs must always come from someone who already has the disease, it is very easy to see how the disease is spread.

As the only manner in which cholera is contracted is by means of the mouth, the way to prevent the disease is not to eat live cholera germs. This is easily done as the germs are instantaneously killed by boiling or by heat equil to boiling. Do not eat raw foods or unboiled water. Be sure that the person who serves the food is not suffering from cholera and do not permit flies to settle on food between the time that it is cooked and the time that it is eaten.

Cholera is easily cured if treatment is begun early enough. Anyone developing cramps in the abdomen, vomiting or diarrhoea during the cholera epidemic should immediately take a large dose of castor oil or some other strong purge to clean out the germs and the poisons in the intestine and then place himself under medical attention. The purge will do no harm if the sickness is not cholera and if it is cholera and the patient has taken it before going to the doctor, valuable time will have been saved.

As death in cholera is due to the loss of liquid from the blood, the best way to cure it is to prevent this loss until the germs have been driven from the intestine. This is done by either taking a medicine by mouth which stops the absorption into the intestine of the liquids from the blood or by injecting fluids directly into the blood to replace that which has been lost through absorption into the intestine.

## Yen Leaves Peking, Li's Envoy Follows To Urge His Return

(Eastern News Agency)

Peking, July 30.—As previously reported Dr. W. W. Yen, Acting Premier and concurrently Minister of Foreign Affairs, tendered the resignation of the Cabinet to President Li Yuan-hung after the completion of yesterday's Cabinet meeting, but the President pleaded with Dr. W. W. Yen to remain in office, and the latter finally applied for ten days' leave of absence.

The President did not grant the application and despatched the Chief Secretary of the Presidency to Dr. W. W. Yen's residence last night requesting him to have patience for the present. Then, all of a sudden Dr. Yen left for Seshan and in consequence President Li, greatly surprised, immediately despatched his messenger after him.

## MEN'S DOUBLES TENNIS PLAY STARTS TODAY

### Many Changes Of Customary Pairs Are Announced In Draw

### WADE-OLLERDESSEN SPLIT

### Champs, Toussaint And Carnavarro To Play Again

The draw for the Men's Doubles championship for 1922 of the Shanghai Lawn Tennis Association given out yesterday shows several changes in the alignment of the customary pairs, though the title holders for the past two years, Toussaint and Carnavarro are to pair up again for another try at the trophy.

The Wade-Ollerdessen has split up, the former coupling up with the Hongkong Chinese player who represented the Southern City here last June on the team with Ng Sze Kwong and M. W. Lo, which defeated Shanghai represented by Tanaka, Pott and Mansel-Smith. Another Chinese listed in the first round is C. H. Tyau, who represented China in the Olympic games last year against Japan and the Philippines. Tyau is coupled with Young. Wade will try for honors this year with V. Sheldon.

W. S. A. Pott's name is absent from the list. Parbury, the undefeated net man who has already annexed the singles title and, with Humphreys won the Hong Doubles championships will play with A. H. George. The pair draw for a match in the second round with the strong Japanese pair, Tanaka and Okada.

The first round matches are to be:

Hawes and W. T. Manley vs. Sheldon and Wade.

Passos and Vieira vs. C. G. Humphreys and J. Elmore.

The winner of the first named match will meet Oka and Okazaki in the second round while the successful pair in the second named match will play Dawson and W. P. Roberts.

Other second round matches listed are:

Toussaint and Carnavarro vs. Barker and Holdsworth; Ollerdessen and Lock-wei vs. Grant and Caulton; Gulick and Barrett vs. Ribiero and Gomes; J. B. Young and Tyau vs. da Silva and A. Leito; Denham and Master vs. Sturton and M. B. Brown, and Tanaka and Okada vs. Parbury and A. M. George.

The first round is listed to be played today, the second round on Friday, the third round on Tuesday, August 8, and the semi-final on Friday, August 11. The date of the final will be announced later.

All matches are to be the best of five sets.

## NAZER WINS IN CLAY BIRD SHOOT FOR HIMROD CUP

In the competition 50 birds, Leggett Trap, held Sunday by the Shanghai Clay Pigeon Club for the cup kindly presented by Mr. Himrod the first 40 birds were shot at according to the conditions of the Murray Challenge Cup, i.e., every member shot alone from the center stand at ten birds each time he went to the stand. The final ten birds were fired at in teams of four members who shifted their stand along the line after every second shot. The sky was threatening rain all the afternoon and with heavy black clouds gathering the light was not good. Weather conditions were in fact not ideal for shooting for in addition the breeze drove the smoke back into the eyes of those shooting, yet in spite of these drawbacks good scores were recorded and if the present level can be maintained there should be no fear of the Murray Cup having to leave Shanghai for shooting at the first 40 birds the net total of the five highest scores was 184. In last year's Competition Shanghai won with a score of 178. Nazer proved the winner of the Cup, scores being as follows:

July Cup presented by Himrod.

| Name | Score | H'cap | Total |
|---|---|---|---|
| Nazer | 36 | 8 | 54 |
| Tuxford | 40 | 12 | 52 |
| Doremus | 48 | 3 | 51 |
| Gande | 47 | 3 | 50 |
| Moller | 43 | 6 | 49 |
| Read | 45 | 3 | 48 |
| Bruce | 34 | 14 | 48 |
| McBain | 37 | 9 | 46 |

Rain prevented any further competitions being held.

## FORT MILLS WINS OVER JAPS; LOSE TO 15TH INF.

Tientsin, July 30.—In the second game in the series for the championship of North China, the Fort Mills nine, champion army team of the Philippine Islands, yesterday defeated the Tientsin, Japanese by a score of 5-0. At no stages of the game were the Japanese dangerous.

Fort Mills will play a return game with the 15th United States Infantry this afternoon when Madge and Mumford, who figured in the Friday pitchers' battle, will again oppose one another.

After the Sunday game, the Manila team will go to Peking for a series with the Legation Guard, before going on to Shanghai.

Tientsin, July 30.—Madge, pitching for the Army, shut-out the Fort Mills team yesterday afternoon 1 run to nothing. He allowed only five hits, struck out six and garnered two safeties as well. Mumford, the Fort Mills star hurler, fanned seven, also allowed five hits, but lost only by a combination of errors and circumstances.

The Army's score came in the first frame. Rattan and McChrystal were out on easy flies. Dusty Miller went to first on a hit by pitcher, went to second on Madge's liner, advanced to third on an error in an infield play, and came home on play in which another error figured largely. That was the lone tally, the rest of the game being airtight, with but one put-out at the plate.

Both teams played a fair brand of baseball, not too brilliant, but snappy in spots. One or two fast plays were made, notably McChrystal's running stab of Parzych's pop fly over third, Oberkorfer's long reach for a low throw to first and the Fort Mills' trick play to second in the 4th inning.

Oberkorfer was on third and Hinckley on first. Hinckley took his time stealing second, figuring the catcher would not make the throw. The catcher didn't but he threw low to second baseman, lying close in behind the pitcher. Instead of completing that "old time stuff," by throwing to third or home, the second baseman snapped the ball back to the shortstop, standing on the bag. Hinckley was just too late in his slide. The play was a new one on many of the fans.

In the fifth inning Oberkorfer made his wonderful play on a bad throw by McChrystal. Leaning as far to the right as he could, with his toe just touching the bag, Oberkorfer caught the throw back-handed.

In the seventh, McChrystal made a good play which made up amply for his near error. Mumford, the last man up, with a man on third, knocked up a nasty little short, fast, fly that had all the earmarks of a hit. "Mac" was after it like a terrier. After running at least 20 feet "Mac" leaned far over and caught the ball, a fraction of a second before it hit the ground.

Mumford pitched a good game allowing the same number of hits as Madge but the latter kept the ones made off his delivery more scattered.

Fort Mills has a player in this Aldinger who is certainly speedy. In the seventh this whirlwind singled and stole second and third as neat as could be.

## To Play Sailors Tomorrow; Maybe Peking Saturday

The baseball program for the near future includes a game tomorrow between Shanghai, perhaps with Read Hager hurling, and the U.S.S. Isabel. The Admiral's gobs have been practicing up for the game and should put up a good struggle. It is possible that the Peking Marines will open a six-game series here Saturday. Manager Gallop has invited the outfit and is waiting for a reply. The Fort Mills team, champions of the Manila Army series is to play a sizeable series here commencing August 19.

### GINK FOWLER A FEENIX BIRD

### Rises From The Ashes Of Dead Umpires And Proves To Be A Cinder

BY "BUGS" BAER

*Dear Sir and Madam:*

*Hey you! All this fol-de-rol about Gink Fowler is a bunch of mumble.*

*Litizen, my man Humpty Dumpty Halligan, was the only one-man battery ever produced in baseball. He never needed signals. He grabbed his own throwing.*

*He knew what was coming. He never got a sour decision either. He umpired his own pitching.*

*But he was so crooked that he finally threw himself on a mind bet. He signalled himself for an outcurve and then threw himself a slow drop.*

*Yours less than ever.*

*JACK FARR.*

We, remember Humpty Dampty. The egg scrambled Roughtown over the wall. When he threw himself for a slow drop that was his finish.

All the king's hosses and all the king's men couldn't sell Playfellow to Hildrethe again.

Gink gave a double-header decision on every play.

He called the runner out and safe in one breath.

It started many fights. But they could take it or leave it.

Gink was a business man.

It is impossible to please everybody. Some folks think that Gink was a gambler. But his record in fights shows that he never took a chance.

The public is getting tired of these arguments anyway. Why should Mr. Farr seek to throw pearls at our swine?

## JAP HURLER'S HOMER SAVED A SHUTOUT SCORE

### Shanghai Outclasses All-Star Japanese Nine, Win By 7-1 Score

### MALONEY HURTS BAD LEG

### Local Pitcher Counts Fifth Straight Win; Also Led In Batting

A home run by Sakurai, the lad who hit two circuit clouts in the game against Shanghai a year ago, was the only tally garnered by the All-Star Japanese team sent against Shanghai yesterday afternoon. The Americans scored seven times and recorded their eleventh straight victory. Flashes of great baseball punctuated the slow game.

Maloney pitched the long end of a 7-1 victory but snapped the bad tendon in his leg and the game didn't help Walter Holliday's charley horse.

The Americans were too strong for the Japanese yesterday and sakurai didn't have much to offer the Yank clouters. With a good leg, Maloney would have had two

## FIGHTING IN SZECHUEN

*(Independent News Service)*

Hankow, July 27.—Severe and continuous fighting has been taking place near Chungchow, Szechuen, according to a foreign correspondent from Chunking. The Second Army of Szechuen under General Yang Sen is reported to have been victorious over General Nsiung Keh-wu, and has captured Liangshan.

Troops in various parts of Szechuen are now on the move, and the warfare may be long continued. The present struggle is said to be the most bitter internecine fight Szechuen has experienced for many years.

## Tebong Rubber And Tapioca Estate

A general meeting of shareholders in the Tebong Rubber and Tapioca Estate, Limited, in voluntary liquidation was held yesterday morning at the head office of the company, 10 Canton Road.

The following report was made by the liquidator:

"Gentlemen: My appointment as Liquidator was made on June 27, 1921 and duly confirmed on July 12, 1921, the object of the winding up being to reconstruct the Company and to obtain further capital.

"An agreement was duly completed between myself, as the liquidator of the old company, and the directors of the new company—which was duly formed and registered—by which the new company took over all the assets and liabilities whatsoever of the old company and undertook to allot eight shares of one tael each in the new company for every one share in the old company and to issue a further 73,267 new shares of one tael each and to offer these new shares to shareholders in the liquidating company in the proportion of one new share for every old share against payment of one tael per new share.

"The issued capital of the old company was 73,267 shares of 1.0.0 each which called for 586,136 shares of one tael each in the new company. Of these 586,136 shares I have issued to shareholders in the old company 532,438 shares, and the balance of 53,698 shares are to be issued to old shareholders as and when applied for in exchange for share certificates in the old company; these certificates have presumably changed hands, without being transferred in the books of the company, and I have no means of ascertaining the present holders, but no doubt they will be presented for exchange in due course.

"All the liabilities of the old company are being defrayed as per agreement by the new company.

"The assets were also taken over by the new company therefore no actual property has come into my possession hence there are no accounts to be submitted.

"The title deeds of the estate are still registered in the name of the old company. I hope at an early date to be in a position to make the necessary transfer and to complete the liquidation.

"To comply with the Ordinances it was necessary for me to call this meeting at the end of the first year from the commencement of the winding up, and no lay before you what has been done during the past year.

"That, Gentlemen, is all I have to report and I thank you for your attendance."

# Tebong Rubber Estate Meeting

A general meeting of the holders of debentures of The Tebong Rubber Estate, Ltd. secured by Deed of Mortgage and Trust made July 15, 1922, between the Company and Harry Martin Little and Roderick George Macdonald as Trustees was held at the Head Office of the Company, 10 Canton Road, yesterday afternoon at 4 o'clock. The following Resolution assenting to the modification of the rights of the Debenture holders under the said Deed of Mortgage and Trust, was proposed as an Extraordinary Resolution and passed:

"That the Company being unable to pay the interest due this July 31, 1922, on the outstanding Debentures the Trustees be and they are hereby authorised to enter into an agreement that the Company be at liberty to defer all payments of interest to a date not later than July 31, 1923, in consideration of the Company agreeing that the debenture rate of interest be raised from 8 percent to 9 percent per annum as from January 31, 1922, until payment of all interest in arrear."

The chairman said:

"Gentlemen, the circular explaining the necessity of calling this meeting has been in your hands for some days and, as I presume that you have all read it, I do not propose to weary you by going over all the ground again.

"The position briefly is this, the Tebong Company has a debenture issue of Taels 250,000 bearing interest at 8 percent annum, which interest is payable half yearly on July 31, and January 31. The Company now finds itself without sufficient money to pay the half yearly debenture interest due today and, acting on legal advice given to the trustees for the debenture holders, the directors have called this meeting to ask you to consent to allow the Company to defer all payments of interest for a period not exceeding 12 months, in consideration for which they propose that you should receive interest at the rate of 9 percent instead of 8 percent for such period as the interest is in arrear."

How long this is likely to be it is impossible to say, as so much depends upon whether Government restriction of output, which has been under discussion for many months past, is enforced or not. Personally, I am convinced that if restriction does come in, the whole situation regarding rubber estates will change almost immediately, confidence will be restored and it will become possible to borrow money or to issue further shares with which to liquidate ones liabilities.

"On the other hand, if restriction is not enforced then there is going to be a very bad time in front of all rubber companies, for the next year or two and only those that are at present financially strong will be able to survive.

"Now, you have two alternatives before you, firstly to agree to the Directors suggestion, which does not necessarily mean that you will not receive any interest at all for the next 12 months. If restriction comes in and conditions improve materially, as it is confidently expected that they will do, you may only have to wait for three or four months for your interest, on the other hand, if you take the second alternative of foreclosing, and conditions do not improve you will have to take the risk of being asked to put up money to keep the Estate going pending a sale. Rubber estates, no matter how good, are almost unsaleable at the moment and you might quite conceivably have to wait for more than 12 months before a purchaser was forthcoming, in which case you would find yourselves in exactly the same position as you would have been in had you adopted the Directors proposal.

"It is extremely unfortunate that the debenture interest should have fallen due just at the time when some decision regarding restriction seems to be imminent, because as I have said before, this is the key to the whole situation. If it comes, our troubles will soon be over, if it does not we are in for worse times than any we have yet experienced. In the meantime no one is likely to contemplate purchasing an Estate, when, if the decision is against restriction, there is every likelihood of being able to acquire it much more cheaply in the near future.

"That is all I have to say, Gentlemen, but, if any of you have any questions to ask, I shall be pleased to answer you to the best of my ability."

## *Bandits Ravage Western Shensi*

*(Reuter's Pacific Service)*

Peking, July 27.—Mr. Liu Chen-hua, Civil Governor of Shensi, has telegraphed to the President and the Cabinet saying that the western districts of Shensi have long been under the domination of bandits, notably the hsiens of Fumu and Chiteng. Recently these bandits have been suppressed but the people are so impoverished that they are in a state of partial starvation.—

The hsiens south of Hanchung have suffered heavily at the hands of General Chen Chu-fan and his followers, and the people there are also in a bad way. In the recent advance of General Chen heavy losses were suffered by the people of Chenpe, Shihchuan, Hanyin, Szeyaang, Lankou, Pingle and Chenpin hsiens. Mr. Liu asks for monetary assistance of these people.

## SHENSI WOMEN AND CHILDREN SOLD, IS REPORT

(Chung Mei Service)

Peking, July 27.—The dire conditions of certain parts of Shensi are portrayed in a telegram to the Central Government from Governor Liu Chen-hua. He says that floods, famine and military operations have brought the people to poverty and hunger.

There are five hsiens in the western part of the Province, which were held by bandits, and although these bandits were driven out, the houses are empty and there is no food.

Last year the deposed Tuchun, Chen Shu-fang, escaped to the mountains in the south. Governor Liu sent troops to suppress him and his followers and found that those regions are barren and the inhabitants have eaten up all the seeds that should have been planted and are living on grass roots and tree bark.

This diet kills many and in some cases cannibalism is resorted to. Children and women are being sold for food. Governor Liu states that the suffering is too great for him to relieve all and he urges the President and Premier to help raise a large sum to save the starving of his Province.

## *Poincare Bitter Against Germans*

*(French Wireless through Reuter)*

Paris, July 30.—M. Poincare today inaugurated near the ruins of Vauquois a monument erected under the auspices of a Franco-Italian-American committee in commemoration of the battles fought in the Argonne in the Great War.

M. Poincare recalled the successive invasions of the Argonne and drew a parallel between the condition of the country under the Germans at the time of the Armistice and the promises which it held for the future.

Germany, who was responsible for the War, must repair the wrong she committed, he concluded:

"Voluntarily or by force she will repair it."

## *Educator Hands Over Kansu Seal*

*(Reuter's Pacific Service)*

Peking, July 27.—Mr. Lin Hsiknang, Chief of the Educational Department in Kansu, has reported to the Government that in accordance with the Cabinet's instructions of July 7 he took over the seal of office of Civil Governor on July 18, from Mr. Pan Ling-kou who by the same message was summoned to Peking for a conference on State affairs.

The Government has also received a telegram from Mr. Pan containing the same information and adding that Mr. Lin is thoroughly capable of carrying on the administration of the Province.

## Exchange Fluctuations

Asia Banking Corporation

July 31, 1922

Spot and forward bar silver were each down ⅛d in London on Saturday.

The New York price declined to 69½ cents and the London-New York cross rate to 444¾.

The only changes in our official quotations today were a rise in our Franc rate to 940 and in the Rupee rate to 265½.

Our market here was very quiet throughout the morning but steady.

Some business in Sterling was done at 3-5¾ and in Gold Dollars at 77½ but throughout the morning there were buyers rather than sellers at these rates, sellers offering only 3-5 11-16 and 77⅜.

Some business in Yen was done at rates varying between 61⅝ and 61¾.

In the afternoon the market was a trifle easier with sellers of Sterling at 3s. 5⅝d. of Gold Dollars at 77¼ and of Yen at 61⅞ with buyers a fraction above these rates.

There were buyers of Franc T.T. today at 952 and four months bills at 973.

There were, however, very few bills of any kind on the market today. China Banks bought and sold silver in London on Saturday and the market there is reported as easy.

New York report their market as dull with sellers at the official quotation.

## Plenty Of Cash In Japanese Banks

*(Reuter's Pacific Service)*

Tokio, July 26.—The money market in Japan is experiencing a peculiar phenomenon at present, according to the financial writers. Although capital is plentiful in the hands of the bankers the rate of interest is abnormally high.

No loans can be raised under 8 percent per annum even on so-called gilt-edged securities. At present 9 to 10 percent is offered on debentures of first-class industrial concerns.

This is not so surprising considering that interest on Government bonds now works out at 7 percent or thereabouts.

The question is frequently asked, how can the borrowers of money at the prevailing high rate of interest secure a remunerative return? The fact is that the use of money at high interest helps to maintain the high prices of commodities.

## Pilsudski To Form New Polish Cabinet

*(Reuter's Service)*

Warsaw, July 30.—The Main Committee of the Diet, which proposed General Korfanty as a candidate for the Premiership, yesterday decided by 222 votes to 202 to withdraw the candidacy and asked the President, Marshal Pilsudski, to form a Cabinet.

Warsaw, July 29.—Marshal Pilsudski, who abdicated the Presidency on July 19 owing to the Diet having elected General Korfanty to the Premiership, does not merely continue in office but secured a vote of confidence in the Diet yesterday which rejected a motion by the parties on the Right censuring the President for refusing to assent to the Korfanty Cabinet.

Thus the crisis, which has lasted for two months is still unsolved. The parties on the Right, whom the Peasants and Socialists are opposing, are now demanding an election.

## Big Seizure Of Opium At Hankow

*(Independent News Service)*

Hankow, July 27.—Fifteen Chinese are detained in the British Police Station on charges of smuggling opium in the British Concession where a big haul of 17,000 ounces of opium was made in a French Company's godown.

The opium seized in the raid this morning is said to be worth about $46,000. The arrested will be tried in the Hankow Mixed Court tomorrow.

## ASSEMBLY WAITS

*(Reuter's Pacific Service)*

Peking, July 28.—The Provincial Assembly of Kirin is not falling into line with the Fengtien Assembly in its efforts to promulgate a provincial constitution for Manchuria but desires to await the outcome of the Constitution to be drafted by he Old Parliament, which it will follow.

## Financial Considerations Of The Chinese Eastern And South Manchurian Lines

BY JOSEF W. HALL

THE Through Traffic Protocol between the two railways as published by the Japanese does not mention the matter of financial assistance to be rendered the Chinese Eastern line. That an agreement for such assistance was consummated contemporaneously with the protocol I am convinced. In fact, the new financial obligations incurred by the Chinese Eastern constituted the first part of the story to leak out. The first version was received from an employe of the administration in Manchuria. Various confirmations were made, the important being in certain financial quarters in Peking.

Almost contemporaneously with the Japanese publication of the protocol on July 8, advertisements appeared in various Peking newspapers, inserted by the Administration of the Chinese Eastern Railway, of an issue of Gold Rouble Short Term Bonds, to the extent of Three Million Dollars. These Bonds are stated to be issued under resolution of the shareholders at Harbin and with the approval of the Minister of Communications, at ten percent interest, bearing date of July 1, the date when the Through Traffic Protocol went into effect. The Russo-Asiatic Bank are designated as financial agents.

It is logical to infer that this sudden bond issue, advertised in an ambiguous way, was put out to cover the financial assistance received by the Chinese Eastern Railway in consideration of its subscription to the Japanese program as embodied in the Protocol. I have no direct proof of this. I do, however, have testimony to the effect that a sum, something more than one million Gold Yen, has been supplied, by way of credits, absorption of liabilities or in cash, to the Chinese Eastern Railway; that this sum came originally from the Japanese Government and passed through the hands of an intermediary; and that the Chinese Eastern heads understand that more is available if required.

These financial arrangements affect very closely the Russo-Asiatic Bank, which exists as broker for the Chinese Eastern Railway, and claims, since the Russian debacle, almost half interest in the stock of the line. There is reason to believe that the bank is well protected in and satisfied with the deal. Other financial interests of other nationalities are also affected, and less favorably, judging by the protests that are being made in financial and diplomatic circles.

One may ask, where does the Inter-Allied Technical Board, which has presumably been operating the Railway since the Allied Siberian Expedition, and has been understood to be the protector of various national interests, particularly Russian, in the line, come in in all this? The Technical Board has, during the past two years, felt its support gradually being drawn from under it, and has maintained its existence only through the courage, sense of duty and indomitable energy of one man, Colonel John F. Stevens. The Board has been under heavy fire from the Chinese since they took control. It has not, however, been unaware of the trend of affairs, and one Legation at least in Peking has received wires couched, as one old railway man expressed it, in "real railway language," over the past three months, warning of what was culminating.

*NOTE—In an article to be published tomorrow Mr. Hall carries on this discussion, dealing with the Japanese program and the Protocol.*

## Convention

BY THE SPECTATOR

Convention is a term we apply to those rules which are supposed to be observed by the particular group to which we belong. It is another name for the established power of custom.

We keep the conventions when we do as other people do around us. There are many to whom this is distasteful. They are continually girding at their restrictions. They talk a good deal about freedom. Some of them call themselves "emancipated."

There is no doubt that if one submits himself entirely to conventions he will have a very dull time of it in this world. It is one's duty to express his individuality and in a measure lead his own life.

But that spirit of independence, good as it is, can be carried too far. And any good thing carried too far becomes a bad thing.

Conventions have their use. In fact they are extremely important. It is foolish to be continually scolding at them and not try to understand their value and how to use them.

In the first place we need conventions to preserve order. Without them we should all be stepping on one another's toes and falling over each other. We should continually be in each other's way.

We need social conventions as a horse needs harness, as wild geese need to fly in well marked lines and not in confused order, and as all living things need to keep their eye on what their fellows are doing if they would not entirely waste their own effort.

Again, conventions are very useful for us in saving us trouble. They enable us to do necessary things by force of habit, and free us from the necessity of doing them by direct attention. They save thought and energy.

In other words convention, although a bad master, is a good servant.

A woman can go on talking and thinking of something else while she is knitting. Your mind can be free to roam while you are walking. In the same way, by observing the conventions and doing just as other people do you are freed from thinking about those things at all and can devote your attention to something more important.

You wear evening clothes to the opera or to a formal dinner, not because you want to show off, but because you do not want to show off, and because you want no attention whatever called to your dress. It is only by observing this convention that you can escape thinking about your clothes at all.

When you go to church you bow your head or you stand up when the rest of the congregation do the same, for the simple reason that you do not want to be conspicuous.

Another advantage is that good conventions induce good thoughts.

If you habitually raise your hat when you meet a lady on the street, or stand up when a lady enters the room, or say the usual phrases of polite society, it not only keeps you from being disagreeable to other people, but it prevents you from thinking of yourself as peculiar, and thus developing a morbid sensitiveness.

Convention makes for beauty and the satisfaction of good taste. For an essential part of all art is form. Every picture has to have certain dimensions, and to accommodate itself to the well known laws of light and shade, the massing of the figures, proportion, and the like. Indeed, without form there is no good art.

**Are You Going on a Journey?**

Chamberlain's Colic and Diarrhoea Remedy should be packed in your hand luggage when going on a journey. Change of water, diet and temperature all tend to produce bowel trouble, and this medicine cannot be secured on board the train or steamship. It may save much suffering and inconvenience if you have it handy. *Sold everywhere.*

## The Russian Railway Commission Abroad

The transportation situation of Russia in the middle of 1920 was a very serious one, or to resort to a term that has for some time been in considerable use in Russia—the situations was quite "catastrophic." The world war and civil war did everything to ruin the whole system of Russian transport. The transport situation was, of course, bad enough everywhere in Europe, except in the neutral countries. But the other belligerant countries were enabled to set calmly about the task of improving their rolling stock and, in general, their railroads after the armistice of 1918, while for Russia the war was by no means ended at that time.

It was the blockade which chiefly prevented the rehabilitation of the Russian transport. Even before the war the greater part of the Russian rolling stock was being built in foreign countries, but from 1914 Russia has been cut off from the outer world first by the Germans and then by the Allies. It was only in March 1920 that the blockade was loosened. Up to that time Russia had had no opportunity to purchase railway material abroad, and this fact not only prevented it from completing or renewing its reserves of rolling stock, but also paralysed the work of its own railway shops through the lack of spare parts necessary for repairs. And the transport service was too sharply hit by the war and chiefly by the blockade to be able to improve itself immediately the latter was relinquished.

In fact, the situation brought about by the blockade continued long beyond the abandonment of same. Indeed it still continues although its acuteness has been considerably blunted. As an illustration of this fact it will be sufficient to say that toward the middle of June, 1921, out of the total number of 18,451 locomotives, 11,154 were not in use and 1,870 could not work for lack of fuel, and there were altogether some four or five thousand locomotives that were functioning more or less well. The number of "sick" engines and "sick" cars was constantly increasing and the authorities made desperate efforts to maintain the transport capacity of the system at a suitable level. But they could not do much and the palliatives that they were able to introduce resulted only in maintaining the efficiency of the railroads at a level slightly over one half the preliminary estimates.

In view of this most disastrous situation it became clearly recognised that there was no other way out of this state of things than to buy locomotives, spare parts, material, etc., abroad. As soon as the blockade was lifted the Government set to work on such purchases. One of the first acts of the head of the Russian Trade Delegation at London, Mr. Krassin, was to order a thousand locomotives for Russia in Swedish factories. But it soon became clear that the purchases and orders of rolling stock abroad were too gigantic an enterprise to be included in the work of this or that trade delegation. The Government then decided to create a special delegation and by a decree of June, 1920, about 3 months after the raising of the blockade, it created the Russian Railway Commission Abroad, under the direction of Professor Lomonosoff, a well known Russian railway engineer and head of the Railway Delegation to America sent by the Kerensky Government in 1917.

Prof. Lomonosoff and his aides left Moscow on June 18 for Stockholm, but on account of passport difficulties, raised by the Swedish Consulate at Reval, could not reach their destination until July 25. The Commission first of all took up the task of continuing and adjusting the negotiations begun in March by Krassin with the Nydquist and Holm Works for the construction of a thousand locomotives for Russia and for the delivery of certain quantities of railroad material. Krassin also opened similar negotiations with German firms and the Commission therefore undertook to carry these negotiations further. But, whereas for the orders placed in Sweden, there were no difficulties, for the orders placed in Germany arose the question of payments. Russia agreed to pay the amount of these orders in gold, but Germany could not accept it, as the Versailles Treaty was opposed to it. After some time and many discussions of this question with the English and Swedish Governments a contract was signed with a group of Scandinavian and German bankers and 600 locomotive order were asking Germany. The contract was signed February 28, 1921, and the first payment in gold was to be made March 14, 1921.

It will be recalled that this was just at the time of the Kronstadt insurrection. At Paris, at London, it was already felt to be certain that the Soviet Government was defeated. At Berlin the groups which negotiated the locomatives order were asking themselves whether the Bolsheviks would pay. This question was also of interest to certain other governments who were well informed concerning the orders in question.

The Bolsheviks did pay on March 11, three days before the day fixed. This produced a remarkable effect. The Anglo-Russian Trade Agreement was signed on March 16, 1921, and the Peace Treaty with Poland was concluded on March 18.

**ORDERS PLACED**

The headoffices of the Russian Railway Commission Abroad are in Berlin, and it has also offices at Stockholm. The Commission is divided into sections corresponding to the country or territory in which the orders have been or are about to be placed. For instance, there are sections for Great Britain, Norway, Canada, Austria and Czech-Slovakia, Ruhr district, Silesia etc., etc. It has also subdivisions, such as "rolling stock," "materials" "water transport," "equipment," etc. Representatives of the Commission are now in every industrial country of Europe and America.

The principal orders placed abroad—as we have seen—are orders of locomotives, 1,000 from the Nydquist and Holm Works in Sweden, and 70 others from various German firms. In addition the Commission ordered 1,000 tank cars in England from the Leeds Forge Works. The tanks have a capacity of 38 tons each, and are to be delivered in Russia, at Novorossisk; 500 tank cars were ordered from the Canadian Car and Foundry Co. in Canada.

Finally, the Commission placed many orders for railway and other material, such as rails, boilers, tires, springs, belts, cables, scales, lamps, motors, sheet iron, instruments, apparatus, firebrick, etc., etc.

The value of the orders placed up to January 1, 1922, is in round figures 578,000,000, Swedish Crowns, equivalent to about 155,000,000, gold dollars. The orders are distributed as follows among the various countries:

In orders for equipment, an important place is held by telegraph and telephone instruments and accessories. The firms receiving these orders are in Germany—L. M. Ericksohn and Ko., and F. Schuchardt; in England—The Automatic Telephone Manufacuring Co.

**THE "DERUTRA"**

For the purpose of transporting the products and articles ordered by Russia abroad, a special Russo-German company, called "Derutra," (abbreviated for "Deutsch-Russische Transport Kompanie") has been formed, as the result of an agreement between the Russian Government and the German Hamburg-American Line.

This company will transport to Russia all goods delivered to German ports destined for Russia. The "Derutra" has already forwarded to Russia a certain number of locomotives built in Germany as well as several cargoes of goods of various kinds: rails, agricultural machinery, etc.

The Hamburg-American Line is placing at the disposal of the "Derutra" as much tonnage as may be necessary for the speedy and regular transportation of Russian orders.

The Control Commission of the "Derutra" consists of four members, two of whom represent the Hamburg-American Line and two of whom are representatives of the People's Commissariat for Foreign Trade.

## Divorce

BY HUTCHINS HAPGOOD

It is no wonder that the hearing of 6,500 divorce suits in two years broke down the nerves of Judge Sabath, of the Superior Court in Chicago. It would be a severe experience for any sensitive man. It would appear to almost any man in such a situation that marriage itself is passing away.

And yet it is probable that divorce is an indication of the vitality of marriage rather than of its decay. When institutions are really dead they are allowed to remain as meaningless forms, and people pay no attention to them. When atheism is widespread among a people there is no opposition to the established church. It is not significant enough to be opposed.

Divorce means that men and women have a marriage ideal that is hard to attain. Now that the religious or metaphysical meaning of marriage is not widely felt, people demand of it more complete individual satisfaction. That demand, if it continued to be the determining factor, would be destructive of marriage, for marriage is indeed a mystic fact and cannot live without the realisation of its spiritual meaning.

The present unrest resulting in frequent divorce is a sign of dissatisfaction with the merely temporal significance of marriage. Men and women cannot and do not deeply desire to lead a merely reasonable life together. From the point of view of reason love is a misunderstanding between a man and a woman, as a French wit put it.

As long as we seek in marriage satisfaction of reason and of individual impulse only, there will be dissatisfaction. We again demand spiritual marriage, and to attain it are restlessly striving to work out deeper social and more human bases than those of the past.

## The Secret Of Memory

BY OWEN OWEN

Here is a little secret, practically a whole system in nine words, that may be worth money to any person who knows the value of a good memory in business life and wants to have one:

It is easier to remember two things than one.

Franklin Pierce (F. P.) was our fourteenth President (F. P.). Because these two facts are connected, accidentally, by F. P. you can carry both more easily than one.

If anyone gave you the queer word Vibgyor to remember you would have to repeat and spell it many times before you felt sure of keeping it.

It is hard also to remember the order of colors in the sun's spectrum, namely—red, orange, yellow, green, blue, indigo, violet.

But take the initials of these words in reverse order, and you find your old friend V, I, B, G, Y, O, R.

Now, the surprising fact is that as soon as you link these two hard-to-recall things each becomes easier to remember than by itself. You can feel it become easier at once. You are conscious of some sort of tying together in your mind, so that V and violet, I and indigo, hold each other in place. You instantly see meaning and literal truth in the statement that it is easier to remember two things than one.

There have been numerous systems of economics published, but very one of the numerous devices they teach is a form of linkage. The famous method of attaching a different consonant to each one of the ten numerals, and translating any figure into a word having a meaning with which associations may be formed, is merely an artificial way of verbalising numbers and so making them capable of being linked with facts.

Anyone who has given the plan thorough trial will tell you it is a fizzle and not worth the trouble.

Make your own linkages and you will find you can remember all kinds of facts easily.

I suppose the decimal indicating the ratio of diameter to circumference is the most useful single figure an engineer can carry in his mind because it enters into so many equations such as circumference, area of a circle, surface of a sphere, cubic content of a sphere and so on. It is commonly abbreviated to 3.1416 and is called "pi" (a Greek letter). Carried out to more than these four places it is 3.14159265358979.

Begin memorising it this way: 3....14....15....9....265 The "3" you know anyhow; skip it. The "fourteen-fifteen" are linked as in ordinary counting. Think of the "9" as a bigger figure than those on each side of it.

The "265" reminds you of the familiar 365 days in a year except the first figure. That except is itself an idea, it is a relation or link.

## The Passing Of The Arabian Nights

BY GARRETT P. SERVISS

*(Eminent Astronomer And Authority on Subjects of Scientific Interest.)*

Are the Arabian Nights going? Is that enchanting dream-mine that we have all seen and felt, hanging like a rosy dawn over the unchanging East, from enarmed Cairo to magic Bagdad and Balsora, and on through endless glamor to the realm of the "Princess of China"; is it all to vanish, with Scheherazade, the incantatress—driven from this world by the too-coarse touch of materialistic science?

This question, which formerly was brooded only by a few sensitive souls, timidly anxious over the guessed at possibility of a change that would sterilise the earth against romance, has now become alive and insistent.

For, since the war, the East is rapidly altering its aspect, shifting like a fading kaleidoscopic picture from multitudinous rainbow hues to a dull, uniform, uninspiring gray. The glittering, black-sharded beetles of occidental speed-magic are running swiftly in the oriental sunshine over the sands of the Nile, and the Tigris, and the deserts of oldest Asia, assailing the nostrils of the plodding camel, the ancient "ship of the desert," with the vapors of gasoline, that ill-smelling Genie of science who has emerged from his bottle to be the pretended slave but the real master of the rash fisherman that drew him out of the depths.

The buzzing, roaring aeroplane flies in the very air through which the "enchanted horse" carried off the Prince of Persia, the air that bore Prince Houssain's flying carpet. The mechanical realisation of his dreams is before the waking eyes of the Arabian story-teller, and the inevitable effect is that his dreams fade away; he can dream no more. The charm evaporates. The huddled group of eager, fascinated listeners no longer crowds about him in a shaded corner of the market square. His fantasies are vulgarised by materialisation.

The starting of the aeroplane is as wonderful to look upon as the effect of the turning of the little peg in the neck of the Indian's enchanted horse, but—when the peg had been turned no mechanism that human mind could comprehend was set in motion; henceforth all was enchantment, and the horse rose from the earth, and flew without noise or effort, a slave to mere command.

Not so the aeroplane or the auto. The child of the desert sees that it is not magic that the twist of the white man's wrist brings into action, but only mechanical gearing driven by a mechanical, understandable force, no more wonderful in itself than the force of a bundle of muscles, or of blowing wind, or running water. It becomes his ambition to acquire the white man's science, and when he has learned that, there is no room left for magic.

It is now evident to him that by turning away from his dreams, abandoning the opiate charm of pure contemplation, and concentrating his energies on materialistic existence, he can obtain in reality nearly all the enjoyments that formerly were reserved for the imaginative side of his life, which was the most treasured side, and possibly the most important.

But when that imaginative side is banished and forgotten as it fades away the East becomes no longer the "unchanging," the mystic, the realm of day-dreaming, the siren to whose charms even the hard-headed occident bowed, but instead appears almost repulsive in the disenchanting daylight of mechanistic civilisation.

It is like baring to the noonday sun a wilderness crowded with delicate blossoms of marvellous hues and sweetness, that love moisture and the shade, but which turn to dry skeletons in the burning glare of full day.

A great realm of romance dies with the old East, for the Arabian Nights will lose their hold upon the imagination of mankind when there is no longer a land where their spirit still survives. The generations following us will miss the evasive charm that made Sinbad's and Alladin's and Ali Baba's and the Princess Badoura's and Prince Camanaizaman's adventures seem possible enough in the magic-steeped kingdoms and caliphates of Mohammedanism. For when the enchanted themselves become disenchanted, how can even the pretence of faith survive elsewhere?

For my part I keep the "Thousand and One Tales" on the same shelf with Plutarch's "Lives." I dip into the one no less often than into the other, I believe the one hardly less trustfully than the other, and I could not easily answer the question which has done me the more good.

CASTORIA

for Infants and Children.

Don't Poison Baby.

FORTY YEARS AGO almost every mother thought her child must have paregoric or laudanum to make it sleep. These drugs will produce sleep, and a few drops too many will produce the sleep from which there is no waking. Many are the children who have been killed or whose health has been ruined for life by paregoric, laudanum and morphine, each of which is a narcotic product of opium. Druggists are prohibited from selling either of the narcotics named to children at all, or to anybody without labeling them "poison." The definition of "narcotic" is: *"A medicine which relieves pain and produces sleep, but which is poisonous. doses produces stupor, coma, convulsions and death."* The taste and smell of medicines containing opium are disguised and sold under the names of "Drops," "Cordials," "Soothing Syrups," etc. You should not permit any medicine to be given to your children unless you or your physician know of what it is composed. Castoria does not contain narcotics.

The signature of Chas. H. Fletcher guarantees genuine Castoria

Physicians Recommend Castoria.

"I have frequently prescribed Castoria for common ailments of children with good results."
W. A. CRANDALL, M. D., Buffalo, N. Y.

"I find your Castoria is very beneficial in the treatment of children's ailments."
F. DAVIS, M. D., Chicago, Ill.

"As the father of thirteen children I certainly know something about your great medicine and, aside from my own family experience, I have, in my years of practice found Castoria a popular and efficient remedy in almost every home."
WM. J. MCCRANN, M. D., Omaha, Neb.

"I object to what are called patent medicines, where the maker alone knows what stuff is put in them, but I know the formula of your Castoria and advise its use in proper cases. I judge it to be a very useful, as well as harmless family medicine."
N. B. SQUIRE, M. D., Brooklyn, N. Y.

## Loans To China Worry Japanese

(Reuter's Pacific Service)

Tokio, July 25.—Yesterday a meeting was held at the Finance Department at which Mr. Nishino, Vice-Minister of Finance, Mr. Ono, Vice-President of the Industrial Bank, Dr. Minobe, President of the Bank of Chosen, and Mr. Nakagawa, President of the Bank of Taiwan were present. The subject was the readjustment of what is known as the Nishihara loans made to China during the Terauchi Ministry.

The loans totalled Yen 100,000,000, including those on various railways in Manchuria and Mongolia as well as those intended for the development of mines and forests in Amur and Kirin provinces.

The loans were made to China by the three banks under guarantee of the Japanese Government. According to the contracts the Chinese Government is to refund Yen 50,000,000 of the oans in July, 1923, and the remaining Yen 50,000,000 in 1924.

So far, however, it has not paid even any part of the interest, which amounts to Yen 7,500,000 annually and it has had to be paid by the banks.

At yesterday's meeting the following three plans were suggested for readjustment:

New loans be raised for readjustment of the old loans;

The old loans to be readjusted by means of renewals;

A fundamental readjustment to be effected by raising China's Customs tariff.

The first plan was rejected as contrary to the policy of retrenchment of the Government; the second was found wellnigh impracticable since China is unable even to pay interest on the existing loans.

As to the third plan it was felt that there are many difficulties to be overcome before it may be made practicable. The meeting dispersed without arriving at any definite conclusion, and the discussion will be resumed at a further meeting.

## French Eager For London Meet On Reparations

(Reuter's Service)

London, July 29.—The polemic which has been proceeding in the British and French press during the past week on the subject of the forthcoming meeting in London between Mr. Lloyd George and M. Poincare, in which Italy and Belgium are expected to take part, indicates the importance attached to the conference, which may prove to be the turning point of the reparations question.

It is worthy of note that when the British first proposed to accelerate the date of the conference in view of the German request for a moratorium there was no hurry on the French side to respond but now that the Italian Cabinet crisis threatens to postpone the conversations (September 1 has even been suggested) there is an outburst of annoyance in the French press at the prospect of delay.

M. Poincare, so far averse to conferences, is now most anxious that the meeting in London should not be postponed beyond August 1. The fact is that the tumbling of the mark threatens a general collapse of exchanges with calamitous economic results and France, alarmed at her financial situation, is anxious for a permanent solution.

The French proposal, however, that Great Britain should cancel France's debts and abandon her claims for huge payments from Germany evokes little enthusiasm from the British press. Even the newspapers that advocate a general liquidation of debts point out that so long as the United States does not abandon her claims on Great Britain, the latter will be shortly liable to pay an annual tribute of £50,000,000 to America, namely the interest on the debt incurred on behalf of Britain's Allies, with a compensatory guarantee of all European settlement.

Such parer talk of the abandonment of the occupation of the Rhineland as the quid pro quo, while manifestoes published by the Federation of British Industries and the National Association of Merchants and Manufacturers, of which Lord Aberconway, Lord Cowdray and Lord Leverhulme are vice-presidents, demand not merely drastic reductions in reparations but urge the British Government not to surrender its rights unless substantial concessions are forthcoming, including a reduction in tariffs on the part of Allied countries, which desire the cancellation of obligations.

To such pronouncements the French press retorts by threatening that France will act alone against the recalcitrant debtor unless an agreement is reached before August 15, when the next German instalment is due.

## Hearst Has Eye On N. Y. Governorship

(China Press Service)

New York, July 30.—William Randolph Hearst is marshaling his political forces and journalistic resources with a view to running for the Democratic nomination for Governor of New York. Mr. Hearst is seeking to reorganise the Democratic Party so as to leave Tammany out, as the Tammany forces are now bitterly opposed to him.

Alfred E. Smith, former Democratic Governor of New York, intimates that he will run for the gubernatorial nomination if the Hearst boom becomes a menace to the party. John F. Hylan, mayor of New York, who was first considered a candidate for the gubernatorial place on the Democratic ticket, has definitely withdrawn from the race.

All the New York press other than the Hearst publications are violently against the Hearst candidacy, but as Mayor Hylan was elected in spite of the opposition of all the non-Hearst press, the coming election will prove another test of the power of the Hearst interests. It is believed that the influence of the Hearst publications is now greater than ever.

It is believed that Mr. Hearst intends to use the governorship of New York as a stepping stone to the Senate and later to the Presidency.

## Ed Leader

COACH Ed Leader, of the University of Washington crew, is bringing his oarsmen East to take part in the great intercollegiate regatta at Poughkeepsie, N. Y. The "big boys" from the West Coast are said to compose one of the greatest crews in history and are confident they can win the three-mile Varsity race on the Hudson when they meet the pick of the college crews.

## NEUTRAL FLEET LEADER URGES SUN TO GIVE UP

(Eastern News Agency)

Canton, July 29.—Admiral Wen Shu-teh, Commander-in Chief of the fleet, belonging to a neutral faction, has addressed a lengthy letter to Dr. Sun Yat-sen, which reads in part:

"The reason why the Navy deserted you is that your boastful words do not accord with reality. I maintain neutrality, because I am aware of the meaninglessness of torturing the people by useless fighting and because I cannot bear senselessly to make men-of-war, so valuable to the nation, targets of cannon-balls.

"I can hardly believe that the anti-Northern troops, to which you are clinging as a last straw, have power to cope with General Chen Chiung-ming's troops. The best thing for you to do at this juncture, therefore, is to leave Canton as soon as possible and to patiently await a chance to come to the fore again.

"It is hoped that you will take up my advice and place the four men-of-war, including the Yung Feng, under my command."

In this connection it is generally observed that Admiral Wen Shu-teh has come out under his true colors in anticipation of the prospect that the fighting in the North River district well go in favor of General Chen's troops.

## President Has New Disbandment Plan

(Chung Mei Service)

Peking, July 28.—In another attempt to put through his scheme of abolition of tuchuns and troop disbandment, President Li is said to have seized upon an entirely different plan. This is the enlargement and increase in power of the present "Chiang Chun-fu" or College of Marshals. At present this body consists of some seventy members who have been put on its roll merely to do them honor.

Most of them have lost their former prestige through the turn of the political wheel and to save their face they are made Marshals and members of the Chiang Chun-fu. Nominally they should advise the Government but they never meet.

President Li would give them authority over and above that exercised by the Naval and Military Staffs. It would serve the double purpose of having some body that could handle the situation and at the same time provide a stepping off place for the tuchuns and super tuchuns who must be taken care when their positions are abolished.

A fat salary goes with these jobs, which it is understood would be increased. However, thus far no one seems ever to have collected any of it. This was suggested as a way out for Chang Tso-lin some time ago. He was, however, too active a man to shelve in this way and the plan was thought better of.

The head of this College of Marshals is Chiang Kuei-ti.

Teething Children.

Teething children have more or less diarrhoea, which can be controlled by giving Chamberlain's Colic and Diarrhoea Remedy. All that is necessary is to give the prescribed dose after each operation of the bowels more than natural and then castor oil to cleanse the system. It is safe and sure. Even the most severe and dangerous cases are quickly cured by it.

Sold everywhere.

## DR. REINSCH IS OPTIMISTIC ON REUNIFICATION

Tokio, July 25.—"The present re-alignment of forces in China gives to that country a golden opportunity to form a union not only of governmental forces, but a union of the people and the government as well, thus bringing about a situation which should create financial stability. Just now the conditions in China favor financial stability, as China's public debt is small compared with that of other countries."

This is the view of Dr. Paul S. Reinsch, Minister from the United States to China from 1913 to 1919, who is practicing international law in Washington and is employed as adviser to the Peking government. He is on his way to Peking this time to confer with officials there in connection with the recent governmental changes growing out of civil war.

Dr. Reinsch visits Peking every two years in an advisory capacity. He called at Yokohama yesterday as a passenger on the steamer Empress of Russia. He is regarded as a keen student of Oriental affairs, particularly in their relation to China and is the author of "An American Diplomat in China" and "Secret Diplomacy." For many years before entering the field of diplomacy and law, Dr. Reinsch was professor of political economy in the University of Wisconsin.

"I believe that a new day has dawned for China," Dr. Reinsch continued. "The men who have become prominent are practical minded leaders and do not believe in barren politics but on the other hand insist on practical action. Th's applies in particular to the provincial governors. I regard Wu Pei-fu as a thoughtful man who gives one the impression of a deep student of his country's needs. He shows great executive and strategical ability. He and the other leaders are simple and detest display. They appear to be seeking essential things to improve conditions.

"In the United States, there is great satisfaction concerning the nearly concluded arrangements for a complete settlement of the Shantung question and other past sources of friction between Japan and China. It is felt that the situation in China is now favorable for a strong development of the economic situation in which the Chinese, themselves, will lead but in which they will have the support of Japan, England and the United States. One great result of the Washington conference, in my opinion, has been the taking of the minds of the people away from past sources of friction and has made them consider ways of working together to improve world conditions. The action of Japan in China certainly seems to be in line with these hopes for improved world conditions."

Dr. Reinsch stated that the League of Nations idea seems to be dormant in the United States. "People have other things to think about," the diplomat said adding, however, that there is marked trend back to former President Wilson in American public esteem and that every day the former President's house in Washington is visited by delegations who give him ovations.

## Wu Taking Hand In Premiership Fight

(Chung Mei Service)

Peking, July 28.—General Wu Pei-fu, despite his declared intention of keeping out of Peking politics, is getting actively into the fight for premiership. Due to his telegraphic attack on Chang Kun-kan, who has been acting as concurrent Minister of Interior in addition to his job as Minister of Agriculture and Commerce, the latter has decided to resign the Minister of Interior position which it is expected will be accepted by Manadate today.

Sun Tan-jing the Vice Minister of the Interior, who is a strong supporter of General Wu is to be announced as Acting Minister.

Wu Pei-fu is urging President Li to appoint Dr. Wang Chung-hui as premier. To be sure that he understands the wishes of the Chihli warlord, President Li has sent a personal representative, General Chin Yung-yen, to Paoting and Loyang to discuss this matter.

Friends close to Dr. W. W. Yen say that he is anxious to get out of office and that Saturday's meeting will be his last appearance in the Cabinet. He is expected to leave for Tongshan Hot Springs some time during the weekend.

## Bavarian Dispute Near Settlement

(Reuter's Service)

Berlin, July 29.—An early settlement of the dispute with Bavaria is expected consequent on the calming effect produced at Munich by a letter from President Ebert to the Bavarian Premier, Herr Lorchenfeld, assuring him that the Reich does not contemplate interference with Bavarian autonomy.
